

Dear Mayor Palguta and the Prescott Valley Town Council:

Hello again! It's Robyn Benincasa, the new owner of Quailwood Greens and Quailwood Kitchen and Tap House. It's been a pretty fun project so far to make this little gem of a course awesome again, and to help it live up to its true potential. To that end, we have made several improvements to the Quailwood Kitchen and Tap House (formerly Shawn's Bar) and have hired a great new superintendent and maintenance team to get the greens back in shape for Summer. Our next trick will be to focus on upgrading our menu (adding great healthy food and even breakfast on the weekends) and focusing on ways to improve the guest experience. We are receiving many requests to add outdoor seating as the weather gets even more perfect (love it here!), and we'd like to accommodate those requests by pushing our current fencing out and adding some outdoor couches, tables, and seating areas behind the current patio, so that our guests can enjoy their food/ drinks AND the amazing views at the same time. This outdoor seating area will be a great place to enjoy watching friends and family tee off or approach the restaurant on the turn, and will also be perfect for groups and families. We would continue our current fencing to completely surround this additional outdoor lounge/dining area, and would ensure that there are two means of egress from this space. Thanks for your consideration, and we hope to see you at the Quailwood Kitchen and Tap House or golf course soon! All the Best, Robyn
