

Summary of Verbal Comments by Attendees of Third Neighborhood Meeting

1. What will happen to the pronghorn who graze in the State Land area? Will there be an environmental impact study?
2. The dog park has not been run by the Parks and Recreation Department.
3. How can you have a restaurant in residential zoning? That requires commercial zoning.
4. Won't this project increase water runoff to surrounding areas? Will the project increase flooding? Will the project exceed existing drainage areas?
5. We don't want development. We want the open space.
6. There is a freeze on development in Maricopa County. Developers are coming here because of that.
7. You can't enforce delivery trucks not driving in the neighborhood. Streets are narrow, more traffic is problematic.
